

I Airborne sound insulation

Technical report no.:	08.2005.8 + 08.2005.9
Test institute:	Nüsing
Client:	SOLARLUX Aluminium Systeme GmbH Gewerbepark 9-11 49143 Bissendorf
Product/Component	Five-panel folding façade
Designation	SL 60e
Exterior dimensions (W x H)	4140 mm x 2640 mm
(Frame) Material	Aluminium / Polyamide composite profiles
Airborne sound insulation index	$R'_w = 38 \text{ dB}$
Special features	Akustex 29/38 sound attenuating glass 38 dB Glazing system 4 mm / 15 mm, space between panes 10 mm
Airborne sound insulation index	$R'_w = 45 \text{ dB}$
Special features	Akustex LL-35/47 sound attenuating glass Glazing system 11 mm GH / 15 mm, space between panes 9 mm GH
